Latina

TECNICAL DATA:

BLUENOSE II

22453

L: 690 mm

H: 570 "

B: 110 "

S: 1:75

Amotonado con un motón con hilo galvanizado
 Rig up the a pulley with galvanised wire
 Préparation des poulies avec du fil gavanisé
 Vertäuen Sie der Vertäublöcke mit verzinkten draht
 Aliezzare le bozzelli con filo di ferro galvanizzato
 Aparelhado de um moitão com fio galvanizado
 Tuigen wij met gegalvaniseerde draad een katrol

Recorte y pegue la bandera 224 en el cabo de popa. Pegue los dos aros salvavidas 83 en las escalas del palo mayor, a babor y estribor. Monte las cajas de las luces de situación 222 y 223, péguelas en las escalas a babor y a estribor. Pinte las luces de situación de rojo a babor y verde a estribor y péguelas en las respectivas cajas. Monte con las piezas 225, 226 y 227 el soporte del barco y coloque su modelo ya terminado sobre él.

Cut out and glue the flag 224 on the stern rope. Glue the two lifebuoy rings 83 onto the main mast ladders, on the port and starboard. Mount the location light boxes 222 and 223, glue them onto the ladders on the port and starboard. Paint the location lights red on the port and green on the starboard side, and glue them to their respective boxes. Mount the ship support with the parts 225, 226 and 227 and place the now completed model on top of it.

Découpez et collez le pavillon 224 sur la corde arrière. Collez les deux bouées de sauvetage 83 sur les échelles du grand mât, à bâbord et à tribord. Montez les boîtes des feux de position 222 et 223, collez-les sur les échelles à bâbord et à tribord. Peignez les feux de position en rouge à bâbord et en vert à tribord et collez-les sur leurs boîtes respectives. Montez avec les pièces 225, 226 et 227 le support du bateau et disposez le modèle terminé sur ce dernier.

Schneiden Sie die Flagge 224 aus und kleben Sie sie an die Heckleine. Kleben Sie die beiden Rettungsringe 83 an die Niedergänge des Hauptmasts auf der Backbord- und der Steuerbordseite. Montieren Sie die Kästen der Positionslampen 222 und 223 und kleben Sie sie an die Backbord- und Steuerbordniedergänge. Streichen Sie die Positionslampen für Backbord rot und für Steuerbord grün und kleben Sie diese auf ihren jeweiligen Kästen. Montieren Sie den Untergrund für das Schiff mit den Teilen 225, 226 und 227 und stellen Sie das fertige Modell darauf.

Ritagliare e incollare la bandiera 224 sulla cima di poppa. Incollare i due salvagenti 83 sulle scalette dell'albero maestro, a babordo e tribordo. Montare le cassette delle luci di posizione 222 e 223, incollarle sulle scalette a babordo e a tribordo. Dipingere le luci di posizione di rosso a babordo e di verde a tribordo e incollarle sulle rispettive cassette. Montare con i pezzi 225, 226 e 227 il supporto dell'imbarcazione e sistemarvi il modellino ultimato.

Recorte e cole a bandeira 224 no cabo de popa. Cole os dois aros salva-vidas 83 nas escadas de corda do mastro principal, a bombordo e estibordo. Monte as caixas das luzes de situação 222 e 223, cole-as nas escadas de corda a bombordo e a estibordo. Pinte as luzes de situação de vermelho a bombordo e verde a estibordo e cole-as nas respectivas caixas. Monte com as peças 225, 226 e 227 o suporte do barco e coloque o seu modelo já terminado sobre o mesmo.

Snijd en lijm het vaandel 224 op het uiteinde van de achtersteven. Lijm de twee reddingsbanden 83 op de ladders van de grootmast, langs bakboord en langs stuurboord. Plaats de kisten van de contourverlichting 222 en 223, lijm ze op de trappen langs bakboord en langs stuurboord. Schilder de contourverlichting rood langs bakboord en groen langs stuurboord en lijm ze op de respectieve kisten. Monteer met stukken 225, 226 en 227 de steun van de boot en plaats het beëindigde exemplaar erop.
